ABOUT THE UNIVERSITY:

Sharnbasva University is the first private multi-disciplinary University in the entire North Karnataka providing avenues for the students to pursue higher education in almost all fields of education. Providing quality education at affordable cost has been the hallmark of the University. The University has set itself on the path of emerging as one of the Centre of excellence and a World Class University, which is the dream of Poojya Dr. Sharnbaswappa Appa, the visionary Chancellor of the youngest private university in the entire state.

The Sharnbasva University is backed by the rich legacy of more than 100 years of providing quality education to the deprived sections of the people in the educationally backward Kalaburagi and neighboring districts. The Sharnbasveshwar Vidya Vardhaka Sangha, under whose aegis the Sharnbasva University is functioning, has the honor of starting the first school exclusively for girls way back in 1934 opening doors of learning to the girls. The legacy of providing optimum importance to the girl education has continued to this day and the Sangha was the first to start an exclusive Engineering College for Women in the entire North Karnataka and the second in the entire Karnataka. This College is now part of Sharnbasva University.

ABOUT THE FACULTY:

Faculty of Engineering & Technology (Ex-Women), Sharnbasva University is giving higher education of par excellence to Women, and empowers them to live independently with enlightenment and vocation to pursue. It has resolution only for Women to move ahead of the revolution that is taking place in the areas like Computer Science, Electronics, Electrical and civil Engineering. As artificial intelligence is entering all spheres of our lives, there is a huge demand for researchers and scientists who can understand AI and develop AI technologies keeping this in mind to create more opportunities for women in this field started new courses in Artificial Intelligence, Machine Learning and

Data Science. This faculty offers five Undergraduate programs (B.Tech in CSE, AI & ML, ECE, EEE, Civil) and Three post graduate courses (M.Tech in CSE, DCN, AI & DS).

ABOUT THE DEPARTMENT:

The department of Computer Science & Engineering was established in the year 2017, in the Faculty of Engineering and Technology (Exclusively for Women). Computer Science & Engineering Department is having a post-graduate course in Computer Science and Engineering and also a research program. Department is having well-equipped laboratories and experienced faculty members. Departments conduct periodic Faculty Development Programs, workshops, seminars, symposiums, conferences, and Tech Fests to help the faculties, students, and research scholars. The department has a very good placement record.

ABOUT FACULTY DEVELOPMENT PROGRAM (FDP):

Big data is changing the world with its advanced analytical capabilities. The world's data collection is growing dramatically with our day-to-day Internet usage. It comes to a breaking point for significant technological changes that can bring new decision-making strategies, handling health, finance, education, agriculture, banking, marketing, cloud computing, etc. The inconvenient volume of data constitutes a sudden challenge to conventional computing domains and requires scalable storage and a distributed method for data querying and analysis. This workshop has been designed for diving deeper into big data technologies along with hands-on sessions on the concepts and tools used in Big data analytics.

TOPICS TO BE COVERED:

- Introduction of Hadoop and its installation
- Hands-on experience in installing single-node Hadoop, and working with HDFS, Spark, PySpark DataFrame
- Data Analytics using SQOOP, Pig, and Hive.

OBJECTIVES: This workshop aims to provide a platform to exchange fundamental information concerning Big data concepts, tools and techniques to the faculty members, research scholars, and PG students of Universities and Colleges.

OUTCOMES:

This FDP will cover the basic algorithm that helps students, researchers, and faculty members to build and apply prediction functions with an emphasis on practical applications. Attendees, at the end of this workshop, will be technically competent in the basics and the fundamental concepts of Big Data Analytics with Hadoop Tools.

WHO CAN PARTICIPATE:

The faculty members of the AICTE approved institutions, Research scholars, PG scholars, participants from Government, Industry, and staff of host institutions.

REGISTRATION:

Maximum of 30 participants will be allowed to register for the FDP. Registration will be on first come first serve basis.

VENUE:

Seminar Hall, Department of CSE, Faculty of Engineering and Technology (Ex-for Women), Sharnbasva University, Kalaburagi.

REGISTRATION DETAILS:

Registration Fee : 2500/- (Including 18% GST)

SessionwisereportofFDPonBigDataAnalytics withHadoop

Day1

Session-1

Inauguration of one week Faculty Development Program on BigData Data Analytics with Hadoop. It was inaugurated by our beloved Vice-chancellor, Register, Pro-vice chancellor and Dean and resource person Pankaj Singh. It has been started with enlightening the lamp followed by felicitation of the dignitaries on the dais. The gathering was addressed by the vice chancellor. It has been ended with vote of thanks.

First day it has started with introduction of Bigdata, requirement of bigdata, Application and types of data, Characteristics of Bigdata. Comparison with Other Systems, RDBMS, A Brief History of Hadoop, Apache Hadoop and the Hadoop Ecosystem, Hadoop Releases.

Session-2

It has start with the installation of Hadoop 2.8.4 on Linux operation system(Ubuntu 16).The installation is started with the java, ssh and hadoop. After download and installation, then set environment variables for hadoop and java. After that set the properties of some files of hadoop, then start all name node, data node, secondary name node etc, check all services are started.

Day-2

Session-1

Started session with small hadoop commands execution like file copy from hadoop to local file system, creating directories etc. Basics of hadoop mapreduce, how mapreduce work, algorithm. HDFS Architecture, MapReduce workflow in detail about combiner, partitioner, reducer.

Session-2

MapReduce application run on hadoop environment using java & Analyze output data.Hadoop Ecosystem setup.

Day-3

Session-1

Basics of Pig, modes , execution types and commands of pig like load data, dump data, describe & arithmetic operators etc. Cricket data analysis and crime data analysis using Pig. First collected the crime data n cricket data then using pig operation data analysis is done.

Session-2

Basics of matrix multiplication using Mapreduce. Created data as input , for that input analysis the data output. Basics of frequent itemset algorithms. Implementation of frequent data set then applied that implementation for the supermarket data to find frequently purchased item together.

Day-4

Introduction to Hive, Database operation on hive, hive CLI, Hive architecture, data model and hive QL. Hive data types.

Session-2

Introduction to k means algorithm, implementation of k mean clustering. Introduction to Pagerank algorithm and its implementation.

Day-5

Introduction to apache Spark, features of spark, operation, components of spark, architecture. Spark execution and working with it. Spark uses basic programming in SCALA. Execution of wordcount program using spark. Analysis of weather forecast data in spark.

Session-2

Basics of bloom filter and its implementation. Finally, Test is conducted for participants and they have announced first rank and second and third rank and rank participants are felicitated by the resource person. Valedictory function was done by our chairpersons Dr. Shivaleela Patil Professor computer science and engineering department and Dr. Sujata Mallapur professor Artificial Intelligence and machine learning. Finally took feedback of workshop from all participants.
